## FOREWORD

This handbook "Budget in Statistics" is prepared by the National Budget unit of Public Finance and Economic policy Division of Ministry of Finance and Treasury. This is a concise presentation of information contained in the Annual Budget Estimates approved by the parliament.

This handbook is an attempt to produce the information on the Government Budget summarised, analysed and compared in charts and graphs as well as in statistical tables, so that it can be easily understood

This booklet contains information that is selected to give an overview of the budget on the following broad areas

- Highlights of the Budget 2007
- Review of the Budgets 2001 - 2005
- Budgetary Position 2005 - 2006
- The Budget 2007
- Resources 2007

Any errors or omissions brought to our notice or any suggestions in this regard are welcome. They will provide a scope for improvement in future issues.

I wish to express my thanks to all the staff who extended their co-operation in this novel exercise

Thank you  
19<sup>th</sup> February 2006

Ibrahim Rasheed  
Executive Director  
Ministry of Finance & Treasury

Ministry of Finance & Treasury

# THE BUDGET SYSTEM

The fiscal year of the Government of Maldives runs from 1st January to 31st December.

## Basis of Accounting

The Budget is essentially based on cash accounting principles. The estimates for the budget are prepared on the basis of the total requirement to finance the expenditure of government keeping in view the revenue constraints for each year.

## The Budget Process

The Minister of Finance and Treasury is responsible for the preparation and presentation of the budget to the Majilis for approval. The Government Budget consists of the regular budget and the extra-budgetary operations. The regular budget presents estimates of domestic revenue, current revenue and domestically financed capital expenditure. The extra-budgetary operations are made up of two parts, one comprising expenses for projects financed by foreign grants and the other comprising projects financed by foreign loans.

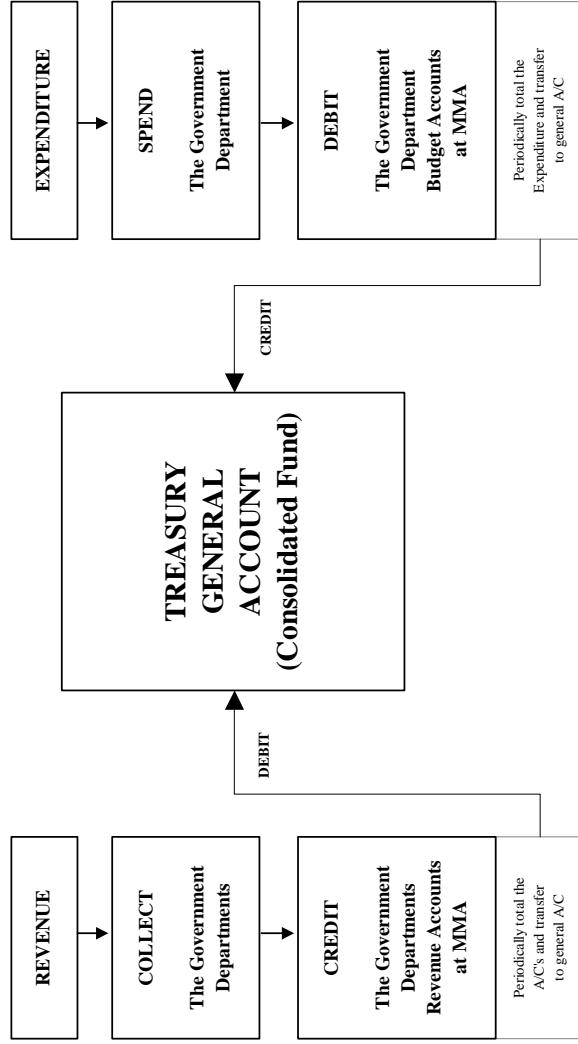

## The Budget Formulation

The annual budget formulation process begins in late July when the Ministry of Finance and Treasury requests individual ministries and departments to provide information on actual outturns for the past year, revised estimates for the current year, and the budget expenditure proposals for the forthcoming year. The Ministry of Finance and Treasury also asks departments to provide information for their extra budgetary operation on foreign financing projects (loans and grants). The budget is then formulated and consolidated on the basis of the information provided by departments, in consultation with the Budget committee and the Cabinet. The final budget is sent to the Majilis in early December for approval.

## BUDGET PROCESS 2007

11

SENDING OF APPROVED BUDGETS TO RESPECTIVE OFFICES

## HIGHLIGHTS OF THE BUDGET - 2007

The principal aim of the 2007 Budget is to eliminate domestic borrowings and improve the macro-economic position.

The total **Budget**, approved by the Majilis for 2007 is Rf 12343.8 m.

The total **Government revenue** for 2007 is estimated to be Rf 12343.8 m, consisting of foreign aid grants and loans of Rf 5110.4 m and domestic internally generated revenue of Rf 7233.4 m. The domestic revenue is comprised of tax revenue of Rf 3193.9 m and non-tax revenue of Rf 4039.5 million.

**Total expenditure** is forecast at Rf 12343.8 m giving a Balance budget for the year. Within total expenditure, recurrent expenditure is Rf 6797.2 m and capital expenditure is expected to be Rf 5546.6 million.

The total **Recurrent Expenditure** in 2007 is projected at Rf 6797.2 m. This is an increase of 3.2% over the revised current expenditure of 2006. Commitments on interest, wages and pensions are Rf 2551.5 m. and subsidies Rf 110.8 m. Wages and salaries and other allowances accounting for 17.7% of the total budget.

A total of Rf 5546.6 million has been provided under **Capital Expenditure** in the budget estimates of 2007. This includes foreign loan repayments amounting to Rf 366.8 m, domestic loan repayments 95.6 million and capital investment projects amounting to Rf 3307.3 m. (Domestic 300 m. and foreign 3007.3 m).

The foreign loan repayment increase by 31% over the year 2006 provisional estimates and total capital expenditure increase by 187% over the provisional estimate for 2006.

## Scope of the Budget

The Budget records all receipts and expenditure by government departments and ministries, including sales of goods and services to the public, on a gross basis. Transactions between the central government bodies and non-financial public enterprises are usually recorded in the budget on a net basis.

### The Budget Classification

The revenue of the government falls into two broad categories.

1- Revenues of the government, which are mainly domestic in nature and include, both tax and non-tax revenues.

2- Revenues of the government that are external in nature and include foreign grants and proceeds from foreign loans.

The expenditure of the government is divided into recurrent and capital expenditure. These are further divided according to two main types of classification; economic and functional.

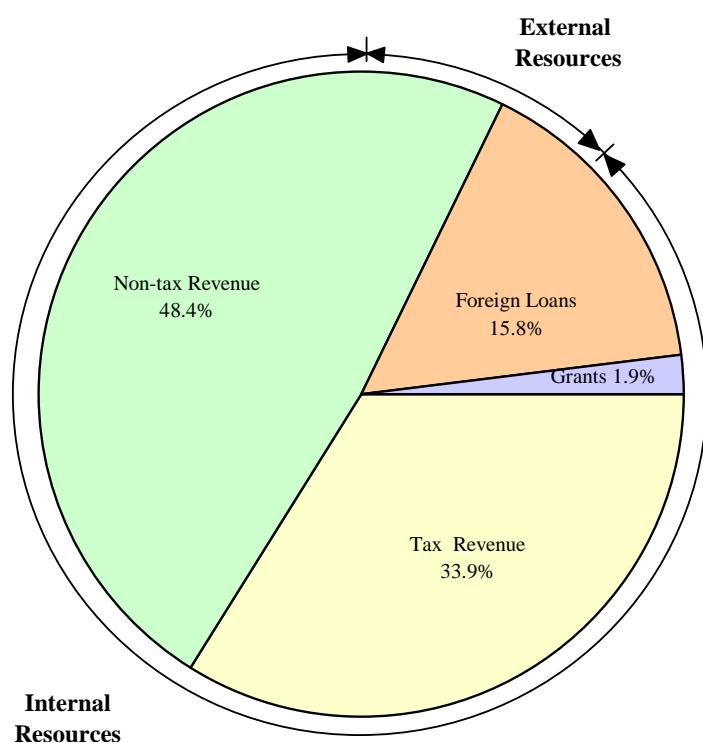

The economic classification of recurrent expenditure includes items such as salaries and wages, travel expenses, supplies and requisites, repairs and maintenance. The economic capital expenditure consists of equipment outlay, amortization, capital contribution and investment outlays.

Functional expenditure, of either a recurrent or capital nature is further subdivided into such categories as General Public Services, Social Development and Welfare, Economic Services and Debt-servicing.
