## BUDGET UTILISATION BY OFFICE

*in millions MVR*

The cumulative revenue and grants for the period, 01 to 09 January 2020, is MVR 87.8 million. Most significant receipts were received from tax revenues; TGST, GGST, Import Duty and BPT.

The cumulative expenditure for the period is MVR 219.9 million. The majority of expenditure during this period was spent on recurrent expenditure; salaries and wages, and allowances to employees. Notable spending on capital expenditure include PSIPs, Investment Outlays and Lendings.

The overall balance for the period is a deficit of MVR 132.1 million, as expenditure incurred was higher than revenue received during the period.

Net Issuance for the week, 05 to 09 January 2020, was a surplus of MVR 74.5 million. Government Securities valued at MVR 1,636.7 million matured, while MVR 1,711.3 million were issued.

**Notes:**  
 Figures in this report may be different to reports published by other offices as the figures are recorded the day it becomes realised to the Public Bank Account.  
 Total expenditure include figures where budget was consumed in 2019, but has been recorded as an expense in 2020. Cumulative 2020 expenditure is likely to be understated as expenditure for this period includes reversal entries for transactions for which budget has been consumed in 2019.
