## Executive Summary

---

The 'Government Budget in Statistics' handbook prepared by the Fiscal Affairs and Economic Policy Division (FAEPD) of the Ministry of Finance and Treasury is a concise presentation of the National Budget estimates approved by the People's Majlis (Parliament) for the year 2013.

The handbook was compiled in an attempt to present the National Budget numbers in a summarized manner under the following headings:

- The Budget System and Process
- Budget Summary, 2012-2016
- Government Revenues
- Government Expenditures
- Public Sector Investment Program (PSIP), 2013-2016
- Review of the Budget, 2011- 2016 (in GFS Format)
- Historical Data

The Budget for the year 2014 is prepared on the basis of a medium-term framework. Hence, this publication includes actuals for 2012, revised estimates for 2013, and approved estimates for 2014, 2015 and 2016.

We would like to take this opportunity to extend our sincere gratitude to all the staff of the Fiscal Affairs Division for their commitment and effort put into this publication.

## THE BUDGET SYSTEM AND PROCESSES

---

The fiscal year of the Government of Maldives runs from 1<sup>st</sup> January to 31<sup>st</sup> December.

### **Basis of Accounting**

The Budget is essentially based on cash accounting principles. Budget estimates are prepared on the basis of the total requirement to finance the expenditure of the government considering the revenue constraints for each year.

### **The Budget Process**

The Minister of Finance and Treasury is responsible for the preparation and presentation of the budget to the Majlis for approval. The Government Budget consists of regular budget and extra-budgetary items. The regular budget presents estimates of domestic revenue, current expenditure and domestically financed capital expenditure. Extra-budgetary items include estimates for projects financed by foreign grants and foreign loans.

### **The Budget Formulation Process**

The annual budget formulation process begins in mid-June when the Ministry of Finance and Treasury issues the Budget Circular which requests individual ministries and departments to provide regular and extra budgetary information on actual out-turn for the past year, revised estimates for the current year, and expenditure proposals for the forthcoming year. Once the requested data and estimated budgets are received, the FAEPD then starts evaluating it. The evaluation process first includes technical assessment, followed by technical and ministerial meetings with the offices. These meetings help to cap expenditures on ceilings provided to each Ministry and Independent Offices.

The budget is then consolidated on the basis of the information provided by ministries and departments, in consultation with the Budget Committee and the Cabinet. The final budget is sent to the Majlis in late November for approval before the end of the year. With the amendment to the Public Finance Act passed by the Majlis in the year 2012, effective from 2013, the Ministry of Finance and Treasury will have to submit the Budget to the Majlis two months prior to the end of each calendar year.

### **Scope of the Budget**

The Budget records all receipts and expenditure by government ministries and departments, including sales of goods and services to the public on a gross basis. Transactions between central government bodies and non-financial public enterprises are usually recorded in the budget on a net basis.

## The Budget Classification

The revenue of the government falls into two broad categories.

- 1- Revenues of the government, which are mainly domestic in nature and include both tax and non-tax revenues.
- 2- Revenues of the government that are external in nature and include foreign grants and proceeds from foreign loans.

The expenditure of the government is divided into recurrent and capital expenditure. These are further classified into functions and economic activities (functional and economic classification).

The economic classification of recurrent expenditure includes items such as salaries and wages, travel expenses, supplies and requisites, repairs and maintenance. The economic capital expenditure consists of equipment outlays, amortization, capital contribution and investment outlays.

Functional expenditure of either a recurrent or capital nature is further subdivided into such categories as General Public Services, Social Development and Welfare, Economic Services and Debt-servicing.

## Proposed New Revenue Measures for 2014

The national budget for the year 2014 was presented to People's Majlis with new revenue measure of total MVR3.4 Billion. However, these proposed new revenues are expected to be realized only if the necessary amendments are approved from the People's Majlis during the year.

With the new revenue measures proposed for the year 2014, Government is expected to receive total revenue of MVR14.8 Billion during the year.

Proposed New Revenue Measures are as follow:

- 1- Revising import duty from July 2014 onwards.
- 2- Increasing TGST rate from 8% to 12%.
- 3- Continuation of \$8 tourism tax.
