SHELL AND CORE SCHEDULE

SHELL AND CORE SCHEDULE															
BUILDING NAME: P1 (PROPOSED SIX STOREY OFFICE BUILDING AT HULHUMALE)															
NO.	PROJECT:		P1			CLIENT:			MNPI			FILE NAME:		P1-11-601	
1	Sub-structure		Reinforced concrete, with membrane waterproofing tanking												
2	Super-structure		Steel framing with fire protection												
3	Floor structure		Composite decking												
4	Building envelope		Glazed/Aluminium curtain wall, window wall system, 'z-purlin' ventilating screening for parking floor												
5	Internal walls		Strud-framing with sound insulation and fire protection												
6	Internal wall finish		Skim coat plaster												
7	Roof structure		Composite decking												
8	Roof finish		Membrane waterproofing with finish for pedestrian use fixing of AC outdoor units.												
9	Ceiling sub-structure		Proprietary aluminium framing												
10	Ceiling finish		Aluminium acoustic panel/Gypsum acoustic panels												
11	Doors and windows		Steel panel fire doors, standard office doors, aluminium framed glazing window wall system and aluminium framed windows												
12	INTERIOR FINISHES	AREA (sqm)	Floor Finish	Wall Finish	Ceiling Finish	Internal Doors	Electrical Installations	Artificial Lighting	Communication Installations	Surveillance	Air-conditioning and Mechanical Ventilation Installation	Fire Installations	Sanitary Installations	Water Supply and Drainage Installations	
13 GROUND FLOOR															
14	Entrance concourse	42.40	600x600x100 Paving stone	Aluminium exterior cladding	Acoustic ceiling panels (Sound absorption rating of 0.70 – 1.00 NRC, Fire class 0 rating)	Standard office doors, refer to door/window schedule	Socket outlets IT connections	250 lux	Phone line TV socket IT connections	CCTV	Air blowers	Regulatory equipment	VOID	Surface drainage and water supply	
15	Security check	47.78	900x900x12 homogenous tile	600x300x8 ceramic tiles	Acoustic ceiling panels (Sound absorption rating of 0.70 – 1.00 NRC, Fire class 0 rating)	Standard office doors, refer to door/window schedule	Socket outlets IT connections	200lux	TV Socket, IT Connection	CCTV	Air-conditioned & mechanical ventilation	Smoke detector Fire extinguisher	VOID	VOID	
16	Lift Lobby	67.40	900x900x12 homogenous tile	600x300x8 ceramic tiles	Acoustic ceiling panels (Sound absorption rating of 0.70 – 1.00 NRC, Fire class 0 rating)	Fire Doors, 2hrs Fire Rating	Socket outlets IT connections	200lux	TV Socket, IT Connection	CCTV	Air-conditioned & mechanical ventilation	Smoke detector Fire extinguisher	VOID	VOID	
17	Staircase 1 to 4	14.29	Seamless PU, non-slip floor finish	13mm plaster and interior paint finish	Exposed slab with weather sealing paint finish to soffit	Fire Doors, 2hrs Fire Rating	VOID	200 lux	VOID	CCTV	Mechanical airsupply probable at detail design	VOID	VOID	VOD	
18	Waiting Lounge, Reception	397.42	Stone or ceramic tiles	Interior Designer finish to be specified	Acousting aluminium panels (Sound absorption rating of 0.70 – 1.00 NRC, Fire class 0 rating)	Standard office doors, refer to door/window schedule	Socket outlets IT connections	500 lux	Phone line TV socket IT connections	CCTV	Air-conditioned & mechanical ventilation	Smoke detector Fire extinguisher	VOID	VOID	
19	Maintenance office	37.85	Low profile access flooring with vinyl tiles	13mm plaster and interior paint finish	Acousting aluminium panels (Sound absorption rating of 0.70 – 1.00 NRC, Fire class 0 rating)	Standard office doors, refer to door/window schedule	Socket outlets IT connections	500 lux	Phone line TV socket IT connections	CCTV	Air-conditioned & mechanical ventilation	Smoke detector Fire extinguisher	VOID	Floor drains
