18	Do we have to repeat Specific Experience projects under General Experience?	Specific experience can be repeated under general experience
19	Are we allowed to repeat the personnel in bid opening ref. no. (IUL)13-K/12/2019/30 for 12 Island Water and Sewerage Projects	If the bidder is submitting bids for multiple islands and wishes to keep certain team members common for the islands, the bidder must submit the overall organizational structure of the team indicating allocation of team members for different islands. If the Employer finds the team distribution unreasonable, the Employer may request the bidder to submit CVs of additional staffs. Resident Engineer and Assistant Resident Engineer cannot be common for any two islands
20	Kindly send us the AutoCAD site plan of Vaadhoo with dimension for initiate the process	The available drawings have already been provided. You may use aerial maps from other sources to check for site dimensions

#	Question	Answers
21	Following information for R.Angolitheem	
22	Nature of the institutions and their occupation (hospitals, schools, universities etc)	Every island has 2 schools and 1 health center, 3 mosques and few other public buildings
23	Combined sewer wastewater parameters (If analysis is available)	Combined sewers are not needed. Sewerage network is only for waste water (Black water and grey water). Storm water network will be provided separately.
24	Topological map	Topography maps are not available at the moment. Detailed survey will need to be done during insurvey stage
25	Annual rain fall data and total area of rainfall for water collection (Eg. Roof top area)	Annual rainfall data can be purchased from Maldives Meteorological Service center. To some extent, these data are available from their website also. Roof areas and catchment areas can be determined after a detaile survey only.
26	Is there any possibility to use treated sewerage	No. Treated sewage will be discharged into sea and so treatment need to be given only to Safe To Discharge limits
27	Water supply connection type	Household connection with household meter. Typical drawing for house connection has been provided under Section 6, Employers requirements
28	Solids handling from WWTP	Sludge from clarifiers and grit screens will be disposed of at the neaby wastyard in each island
29	Please Clarify the RO plant capacity, it has been mentioned as 20 CBM, what is meant by CBM of the RO, is it m3/h or m3/day.	The capacity of the RO plant is given as 20 m3/day.
