Contractor Comment	Response/Reference Document
1. While manufacturers authorization is required, the manufacturers authorization form is not provided in the information sheet	Refer to Addendum 4
2. From the specifications of the items, please note that for textbooks, the usual thickness of the inside pages has been a standard at around 80gsm, however, this time the provided thickness is at 50-60gsm. We would like to clarify regarding this as the thickness is significantly low.	Refer to Clarification 2
3. The GSM of the paper mentioned is 50 GSM but we think that it would lead to an inferior quality of printed material. We would like to propose 64 GSM as the baseline to ensure quality standards are maintained.	Refer to Clarification 2
4. As you reverted that all transactions, calculations and rates should be as per Maldivian Rufiyaa but should we be selected basis our tender, payment cannot be remitted using MVR to us. Hence can we share rates and other calculations in Dollar?	Refer to clause ITT 15.1
5. The bank guarantee has been made in MVR as mandated.	Refer to clause ITT 21
6. The bid security has to be sourced from a third-party and taking into view of the upcoming weekend and the remaining 4 working days available up to the revised bid submission date, we would like to clarify if the already sourced bid security will be acceptable?	Refer to Addendum 4
