Terms of Reference for Web Developer
[RFP No: (IUL) 13-HR/13/2023/159]

INTRODUCTION

Ministry of Finance is seeking an individual with technical knowledge for a Web Developer to develop web and mobile app service at the Ministry.

OBJECTIVE

The objective is to work under Ministry of Finance's guidance to provide the development of web and mobile app services needed by the Ministry.

DURATION

1 year (on a renewable basis based on performance and need)

TASK

- Development of secure systems to enable the ministry to exchange information between other government agencies and the general public.
- Study and understand complex software and mobile application systems
- Development of software and mobile application systems
- Work with end users and internal staff for timely resolution of application issues and develop new software and mobile applications/components.
- Write, revise and maintain software and mobile program documentation, operations documentation, and user guides in accordance with standards.

REQUIREMENT

- In-depth knowledge in HTML, CSS, PHP, JavaScript, jQuery, AJAX, SQL and other relevant open-source web development tools.
- In-depth Knowledge in development using Laravel PHP web framework (Version 8 +).

- In-depth Knowledge in development using a modern UI Framework like React, VueJS, Angular etc.

- In-depth Knowledge in using Git.

- In-depth Knowledge in API development.

- In-depth Knowledge in web development using MVC pattern.

- In-depth Knowledge in Database design and development.

- Good understanding in using Java technologies will be added advantage.

REQUIRED QUALIFICATION & EXPERIENCE

- Bachelor's Degree or higher in Software engineering (or in any related discipline) with Minimum 3 years of experience in Web / Application Development

  OR

  Diploma in Software engineering (or in any related discipline) with Minimum 5 years of experience in Web / Application Development

- Experience in web development using both Dhivehi and English language

- Good understanding in web design, user experience, testing and latest trends

- Worked in at least 2 major web development projects in the past 3 years

- Mobile apps related development experience will be an added advantage

- DevOps related experience will be an added advantage

REMUNERATION

Successful candidate will be offered a total of MVR 20,000.00 monthly salary inclusive of pension contribution and MVR 3000.00 for performance allowance based on performance.

CONTENTS OF JOB APPLICATION

- The job applications should comprise the following documentation and late submission of any of the documents will not be accepted:

- Letter requesting for the job (cover letter),

- Copy of Identification Card,

- Copies of academic certificates (Accredited),

- Curriculum vitae,

- Copies of reference letters produced by previous employers,
- Portfolio of works done,
- Presentation of completed projects during the interview.

NOTE: All developments done during this project (including the source code) will be the property of the government of Maldives.
