

[illegible]

Architectural section drawing of a three-story waste management facility. The drawing shows the layout of the building, including the ground floor with containers and a forklift, the second floor with a truck and various waste containers, and the third floor with more waste containers. Dimensions are provided for the overall building (54.74m wide, 9.00m high) and specific sections (26.40m and 55.86m wide). Labels include 'handrail', 'steel stairs', 'roofed area for boxes, waste bale etc.', and 'Container for household waste'.
