Queries	Clarifications
1. Plot layout/location.	Refer to the attached document
2. Area specifications/requirements for the spaces allocated for the main building. ie; testing lab areas etc	Please refer to the attached tech spec and based on availability it is contractor's scope to identify the most efficient amount of space for the given scope
3. Specifications of the lab equipment & whether it's the contractor's responsibility to procure them	Supply of the lab equipment is not in this design-build contractor's tender scope, the equipment would be supplied by another separate tender. In this tender, the bidder has the scope of providing a detailed list of the equipment. The design phase would include detailed design and drawings of the laboratory facility and providing the detailed list of equipments and chemicals etc required for the lab to function as intended with detailed specifications and recommendations
