## > Please find below the response to the queries raised.

Queries	Response
1. RCCB Specifications The tender specifies the requirement for 32A 2-pole and 4-pole RCCB. Would it be acceptable if we provided a larger 40A 2-pole and 4-pole RCCB in place of the specified 32A units?	Yes, this is ok.
2. <b>Bid Currency vs. Payment Currency</b> In Section 1, Point 15, the document states: "Bidders may express their bid price in any freely convertible currency. If a Bidder wishes to be paid in a combination of amounts in different currencies, it may quote its price accordingly." However, in Section 8, GCC 16.1 and GCC 16.4, it is mentioned that payments will be made in Maldivian Rufiyaa (MVR). Could you kindly clarify whether bids may be submitted in foreign currency and, if so, whether payments will still be settled exclusively in MVR?	Kindly refer to Addendum 05.
3. <b>IP65</b> Enclosure for Din-Rail Devices In Section 6, BOQ, an IP65 enclosure for Din-rail mount devices (MCBs, RCCB, SPD, etc.) is specified. Please confirm whether an IP65 enclosure for Din-rail, 12-way, single row would be considered sufficient to meet this requirement.	Yes, this is sufficient.
4. Inverter sizing In Section 6, it is specified that the inverter "Nominal AC Output" should be in the range of 5–6 kW. Could you please confirm if it would be acceptable to propose a 6 kW single-phase inverter for this requirement?	Yes, this is acceptable.
