Contractor Comments	Response/Reference Document
<p>1. The Employer's requirement states 8 housing units should be included per tower/building. But according to the site analysis, the site extent is very limited and the site shape is irregular. Therefore, providing all towers/buildings to fulfill this requirement is impossible. We have to manage some towers/buildings with less than 8 units per tower/building but not exceeding 8 units per tower/building i.e. the maximum number of units per tower/building will be 8 units. Pls. confirm/clarify.</p>	<p>10 units per floor (11 floors max per tower) is acceptable.</p>
