## **AUDITOR GENERAL'S REPORT**

### **TO THE SHAREHOLDERS AND BOARD OF DIRECTORS OF FENAKA CORPORATION LIMITED**

#### **Qualified Opinion**

We have audited the financial statements of Fenaka Corporation Limited (the “Company”), which comprise the statement of financial position as at 31 December 2020, the statements of comprehensive income, changes in equity and statement of cash flows for the year then ended and notes to the financial statements, comprising a summary of significant accounting policies and other explanatory information set out in pages 4 to 42.

In our opinion, except for the possible effects of the matters described in the Basis for Qualified Opinion section in our report, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2020, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”).

#### **Basis for Qualified Opinion**

1. On 7 January 2013, the Company had entered into agreements with six utility companies to transfer the custody, control and possession of assets of those six utility companies to the Company. According to the section 3(d) of the agreement, “a valuation of all the assets in the revised asset register must be completed and submitted to the Ministry of Finance and Treasury within 3 months of the completion of the verification process”. The Company has carried out a valuation as at 30 June 2019, with the final report dated in December 2020. A gain on revaluation has been recognized as an addition to the Share Capital during the year ended 31 December 2019. As a result, the Company has recognized revaluation gains associated with the assets acquisition subsequent to the merger, i.e. between 7 January 2013 to December 2020, in the Share Capital. Therefore, we were unable to verify the completeness, existence and accuracy of both opening and closing balances of Share Capital as at 31 December 2020, unrecognized revaluation gains/losses related to assets acquired after 7 January 2013 and its related deferred tax impact.
2. The Company has been using the assets developed by the Ministry of Environment and Energy relating to sewerage and water systems to provide related services to the communities based in the islands where the Company has established its power stations to generate and distribute electricity to the community. The income derived from the supply of water has been recognized as part of Company’s financial statements. However, the related assets and the depreciation expense have not been recorded in the Company’s books of accounts to date.
3. As explained in Note 11 to the financial statement, the Company has recorded property plant and equipment at fair value. The fair value of such property was determined by an external independent valuer using desktop valuation method for the purpose of assessing the fair value as at 30th June 2019. However, the Company has not been able to provide sufficient appropriate evidence to validate the following assumptions used for the valuation.

## **Basis for Qualified Opinion (Continued)**

- For assets where no data available and/or insufficient data provided by the Company, values of such assets were considered as 1 MVR.
- For assets where the date of construction/ date of acquisition was not available and therefore assumed as 31 December 2012.

Accordingly, we were unable to determine whether any adjustment relating to the carrying value of property, plant and equipment was necessary in the financial statements for the year ended 31 December 2020.

We conducted our audit in accordance with International Standards on Auditing (“ISAs”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (“IESBA Code”), together with the ethical requirements that are relevant to our audit of the financial statements in Maldives, and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

## **Emphasis of matter – Restatement of comparative balances**

We draw attention to Note 29 of the financial statements, which describes restatement of comparative balances in these financial statements. Our opinion is not modified in respect of this matter

## **Responsibilities of the Board of Directors and Those Charged with Governance for the Financial Statements**

The Board of Directors (“the Board”) is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as the Board determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

## **Auditors’ Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

## Auditors' Responsibilities for the Audit of the Financial Statements (Continued)

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board.
- Conclude on the appropriateness of the Board's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit..

These financial statements are to be read in conjunction with the related notes which form an integral part of these financial statements of the Company set out on pages 8 to 42.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS**

**1. REPORTING ENTITY**

Fenaka Corporation Limited is a Company incorporated and domiciled in the Republic of Maldives, which is fully owned by the Government of Maldives as a limited liability company since 01 August 2012 under the Companies Act No.10 of 1996 with its registered office at Ministry of Finance and Treasury, Ameene Magu, Male', Republic of Maldives.

Principal business activities of the Company include supply of electricity, water and sewerage services in the Maldives except in Greater Male' region.

**2. BASIS OF PREPARATION**

**(a) Statement of compliance**

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board (IASB).

**(b) Basis of measurement**

The financial statements have been prepared on the historical cost basis.

**(c) Functional and presentation currency**

The Company's financial statements are presented in Maldivian Rufiyaa, which is the Company's functional and presentation currency.

**(d) Use of estimates and judgements**

The preparation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the Company's financial statements is included in the respective notes.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies set out below have been applied consistently to all periods presented in these financial statements and have been applied consistently by the Company.

**3.1 Transactions in foreign currencies**

Transactions in currencies other than Maldivian Rufiyaa are translated to Maldivian Rufiyaa at the exchange rate ruling at the date of transaction. Monetary assets and liabilities denominated in currencies other than Maldivian Rufiyaa are translated to Maldivian Rufiyaa at the exchange rate ruling at the reporting date. Foreign exchange differences arising on translation are recognized in the profit or loss.

Non-monetary assets and liabilities, which are measured at historical cost, denominated in currencies other than Maldivian Rufiyaa, are translated to Maldivian Rufiyaa at the exchange rates ruling at the dates of transactions. Non-monetary assets and liabilities, which are stated at fair value, denominated in currencies other than Maldivian Rufiyaa, are translated to Maldivian Rufiyaa at the exchange rates ruling at the dates the values were determined.

**3.2 Financial instruments**

**(i) Classification and subsequent measurement**

**Financial assets**

On initial recognition, a financial asset is classified as measured at: amortized cost; FVOCI (fair value through other comprehensive income) – debt investment; FVOCI – equity investment; or FVTPL (fair value through profit and loss).

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the reporting period following the change in the business model. A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Financial assets- Business model assessment**

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.2 Financial instruments (Continued)**

**(i) Classification and subsequent measurement (Continued)**

**Financial assets- Business model assessment (Continued)**

- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for de-recognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

**Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest**

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early termination of the contract.

Additionally, for a financial asset acquired at a discount or premium to its contractual par-amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.2 Financial instruments (Continued)**

**(i) Classification and subsequent measurement (Continued)**

**Financial Assets- Business model assessment (Continued)**

**Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest (Continued)**

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on de-recognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On de-recognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

**Financial liabilities – Classification, subsequent measurement and gains and losses**

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition.

Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

**(ii) De-recognition**

**Financial assets**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfer nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.2 Financial instruments (Continued)**

**(ii) De-recognition (Continued)**

**Financial liabilities**

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On de-recognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid is recognized in profit or loss.

**3.3 Impairment**

**(i) Financial assets (Including receivables)**

The Company recognize loss allowance for ECLs (Expected Credit Loss) on financial assets measured at amortized cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which measured at 12-month ECLs.

- Debt instruments that are determined to have low credit risk at the reporting date; and
- Other debt securities and bank balances for which credit risk has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort.

This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information. ECLs are probability-weighted estimate of credit losses. Credit losses are measured as the present value of all the cash shortfalls. ECLs are discounted at the effective interest rate of the financial asset.

**(ii) Non-financial assets**

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or a cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.4 Share capital**

**Ordinary shares**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity.

**3.5 Property, plant and equipment**

**(i) Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalized borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income in profit or loss.

**(ii) Subsequent costs**

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss as incurred.

**(iii) Depreciation**

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives of for the current comparative periods are as follows:

Building	Over 20 years
Distribution equipment	Over 12 years
Generation equipment	Over 10 years
Fuel storage facilities	Over 14 years
Machinery and equipment	Over 10 years
Tools and equipment	Over 7 years
Motor vehicles and vessels	Over 7 years
Furniture and fittings and communication equipment	Over 7 years
Computer and office equipment	Over 5 years
Water and sewage system	Over 10 years
Environmental survey	Over 7 years

**FENAKA CORPORATION LIMITED  
(INCORPORATED IN THE REPUBLIC OF MALDIVES)  
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.5 Property, plant and equipment (Continued)**

**(iii) Depreciation (Continued)**

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. The charge for the depreciation commences from the date in which the property, plant and equipment are ready for use.

**3.6 Capital Work in Progress**

Assets under construction as at the reporting date represents the costs incurred or accrued for the projects which are not commissioned for commercial operation as at the reporting date.

**3.7 Intangible Assets**

Intangible assets acquired by the Company are stated at cost less accumulated amortization and impairment losses. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in profit or loss when incurred.

**Amortization**

Amortization is charged to the income statement on a straight-line basis over the estimated useful lives of assets unless such lives are indefinite. The estimated useful lives are as follows:

Computer Software	Over 3 years
-------------------	--------------

**3.8 Inventories**

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is based on the weighted average principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

The value of each category of Inventory is determined on weighted average cost (WAC) basis.

**3.9 Employee benefits**

**(a) Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts.

All local (Maldivian National) Employees are eligible for Maldives Retirement Pension Scheme (MRPS) contribution according to the terms of the Maldives Pension Act Law No. 8/2009 handled by Maldives Pension Administration Office (MPAO) from May 2011.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.9 Employee benefits (Continued)**

**(b) Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods and discounting that amount to determine its present value. The calculation is performed by a professional actuary in every three years in compliance with accounting requirements.

**(c) Short-term benefits**

Short-term employee benefit obligations of the Company are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under short-term cash bonus if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

**3.10 Cash and cash equivalents**

Cash and cash equivalents in the statement of financial position comprise of cash in hand and balance with banks.

Statement of cash flows is prepared in "indirect method". For the purpose of statement of cash flows, cash and cash equivalents consist of cash in hand and balances with banks as defined above, net of outstanding bank overdrafts, if any.

**3.11 Borrowing costs**

Borrowing costs are recognized as an expense in the period in which they are incurred, except to the extent where borrowing costs that are directly attributable to the acquisition, construction, or production of an asset that takes a substantial period of time to get ready for its intended use or sale, are capitalized as part of that asset.

**3.12 Dividends**

The Company recognizes a liability to pay a dividend when the distribution is authorized, and the distribution is no longer at the discretion of the Company. As per the corporate laws of Maldives, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

**FENAKA CORPORATION LIMITED  
(INCORPORATED IN THE REPUBLIC OF MALDIVES)  
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.13 Provisions**

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

**3.14 Revenue**

**Performance obligations and revenue recognition policies**

The Company is in the business of providing electricity, water and sewage and related services. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties.

***Rendering of services***

Revenue from rendering of services is recognized in the accounting period in which the services are rendered or performed.

***Provision of Service***

Revenue from electricity fees, water distribution fees, installation, repairs and connection fees are recognized at the time of provision of services.

***Sale of goods***

Revenue from the sale of electrical equipment, water distribution equipment is recognized in the income statement when significant risks and rewards of the ownership have been transferred to the buyer.

***Other income***

Other income is recognized on an accrual basis.

***Interest***

Interest income is recognized as the interest accrues unless collection is in doubt.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.14 Revenue (Continued)**

**Contract balances**

***Contract assets***

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

***Trade receivables***

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section "Financial instruments – initial recognition and subsequent measurement".

***Contract liabilities***

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract

**3.15 Expenses**

Expenses are recognized in the income statement on the basis of direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the business and in maintaining the property, plant and equipment in a state of efficiency has been charged to income in arriving at the profit for the year.

**3.16 Leases**

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

**(i) As a lessee**

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.16 Leases (Continued)**

**(i) As a lessee (Continued)**

liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. The Company presents right-of-use assets that do not meet the definition of investment property in "Right-of-Use Asset" and lease liability in "Lease Liability" in the statement of financial position.

**FENAKA CORPORATION LIMITED  
(INCORPORATED IN THE REPUBLIC OF MALDIVES)  
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.16 Leases (Continued)**

**(i) As a lessee (Continued)**

**Short-term leases and leases of low-value assets**

The Company has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

**3.17 Events occurring after the reporting date**

The materiality of the events occurring after the reporting date has been considered and appropriate adjustments and provisions have been made in the financial statements wherever necessary.

**3.18 Finance income and finance costs**

Finance income comprises foreign exchange gains.

Finance cost comprises interest expense on borrowings. Borrowings costs that are not directly attributable to the acquisition, construction or production of qualifying assets are recognized in profit or loss using the effective interest method. Foreign currency gains and losses are reported on a net basis.

**3.19 Tax expense**

Tax expense comprises current and deferred tax. Current tax and deferred tax is recognized in profit or loss.

• **Current tax**

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

• **Deferred tax**

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the tax rate enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**3.19 Tax expense (Continued)**

• **Deferred tax (Continued)**

A deferred tax asset is recognized for unused tax losses, tax credits deductible temporary difference to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it no longer probable that the related tax benefits will be provided.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit nor loss.

• **Sales tax**

Revenues, expenses and assets are recognized net of the amount of sales tax, except:

- When the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the sales tax is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- Receivables and payables that are stated with the amount of sales tax included

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

**4. DETERMINATION OF FAIR VALUES**

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of the Standards, including the level in the fair value hierarchy in which the valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**4. DETERMINATION OF FAIR VALUES (CONTINUED)**

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

**5. NEW STANDARDS AND INTERPRATATIONS NOT YET ADOPTED**

A number of new standards are effective for annual periods beginning after 1 January 2020 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

The following amended standards and interpretations are not expected to have a significant impact on the Company's financial statements.

- Onerous Contracts – Cost of Fulfilling a Contract (Amendment to IAS 37)
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1)
- Reference to the Contractual Framework (Amendment to IFRS 3)
- Annual improvement for the IFRS 2018 to 2020

On 7 January 2013, the Company had entered into agreements with six utility companies to transfer the custody, control and possession of assets of those six utility companies to the Company. According to the section 3(d) of the agreement, a valuation of all the assets in the revised asset register must be completed and submitted to the Ministry of Finance and Treasury within 3 months of the completion of the verification process. However, the Company has carried out a valuation as at 30 June 2019 and the gain on revaluation has been recognized as an addition to the Share Capital during the year ended 31 December 2019.

**18.5 Ministry of Finance and Treasury (MoFT)**

In accordance with Shariah concept, Maldives Islamic Bank Private Limited (MIB/Seller) and Fenaka Corporation Limited (Purchaser) entered in to a Murabahah Financial Arrangement on 21 September 2014 to purchase 77 generator sets, cables and distribution boxes for the purpose of electricity generation. As per the agreement, the above specified goods were sold for a Murabahah price of MVR 103,405,989/-, which includes a profit margin of MVR 5,784,202/- (Cost: MVR 97,621,787/-). During 2014 MoFT paid the full outstanding amount to MIB on behalf of the Company. Accordingly the Company recognizes the outstanding loan payable balance to MoFT as at 31 December 2020. The loan carries fixed interest rate of 1.39% per annum and the loan has to be repaid after a grace period of 6 months over 96 monthly installments of MVR 1,562,500/- each starting from April 2015.

**22 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**

**Financial Risk Management**

**Overview**

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

**Overview**

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

**Risk management framework**

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

**(i) Credit Risk**

Credit risk is the risk of financial loss to the Company if a customer fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**FOR THE YEAR ENDED 31 DECEMBER 2020**

**22 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)**

**(i) Credit Risk (Continued)**

**Exposure to credit risk**

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Carrying Amount	
	31/12/2020 MVR	31/12/2019 MVR
Trade and other receivables	250,329,399	165,082,829
Balances with banks	6,354,590	1,660,706
	<u>256,683,989</u>	<u>166,743,535</u>

**Expected credit loss assessment under IFRS 9**

The Company uses an allowance matrix to measure the ECLs of trade receivable. Loss rate are based on actual credit loss experience over past years. These rate are multiplied by scalar factors to reflect difference between economic condition during the period over which historical data has been collected, current condition and company's view of economic condition of expected lives of the receivables.

Scalar factors are based on actual and forecast GDP growth rates and normalized average GDP use for ECL assessment.

**Measurement of ECL**

The key inputs into the measurement of ECL are the term structure of the following variables:

Probability of default (PD)  
 Loss given default (LGD)  
 Exposure at default (EAD)

**Trade and other receivables**

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. There is no concentration of credit risk geographically.

**FENAKA CORPORATION LIMITED  
(INCORPORATED IN THE REPUBLIC OF MALDIVES)  
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**FOR THE YEAR ENDED 31 DECEMBER 2020**

**22 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)**

**(i) Credit Risk (Continued)**

**Expected credit loss assessment under IFRS 9 (Continued)**

The Company believes that the unimpaired amounts that are outstanding are still collectible, based on historic payment behavior. Based on historic default rates, the Company believes that, apart from the above, no additional provision is required.

**Balances With Banks**

The Company held cash and equivalents (Cash at Bank) of MVR. 6,354,590/- as at 31 December 2020 (2019 : MVR. 1,660,706/-). These balances are held with banks that Management believes are of high credit quality and accordingly, minimal credit risk exists.

**FENAKA CORPORATION LIMITED  
(INCORPORATED IN THE REPUBLIC OF MALDIVES)  
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2020**

**22 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)**

**(ii) Liquidity Risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, without incurring unacceptable losses or risking damage to the Company's reputation.

The following are the contractual maturities of financial liabilities as at the reporting date.

**31 December 2020**

**Financial Liabilities (Non-Derivative)**

	Carrying Amount MVR	Contractual Cashflows MVR	0-12 Months MVR	1-2 Years MVR	2-5 Years MVR	More than 5 years MVR
Trade and other payables	1,070,415,683	1,070,415,683	432,954,195	577,877,859	59,583,629	-
Loans and borrowings	133,341,987	133,341,987	110,644,403	18,750,000	3,947,584	-
Leases	28,693,610	30,370,303	7,883,110	7,580,731	14,386,462	520,000
	<u>1,232,451,280</u>	<u>1,234,127,973</u>	<u>551,481,708</u>	<u>604,208,590</u>	<u>77,917,675</u>	<u>520,000</u>

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

**31 December 2019**

**Financial Liabilities (Non-Derivative)**

	Carrying Amount MVR	Contractual Cashflows MVR	0-12 Months MVR	1-2 Years MVR	2-5 Years MVR	More than 5 years MVR
Trade and other payables	772,615,579	772,615,579	370,114,180	216,831,990	185,669,409	-
Loans and borrowings	136,894,674	136,894,674	48,572,090	46,875,000	41,447,584	-
Leases	34,974,489	38,913,040	8,542,736	7,883,111	20,964,839	1,522,354
	<u>944,484,742</u>	<u>948,423,293</u>	<u>427,229,006</u>	<u>271,590,101</u>	<u>248,081,832</u>	<u>1,522,354</u>

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**FOR THE YEAR ENDED 31 DECEMBER 2020**

**22 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)**

**(iii) Market Risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

**(a) Interest Rate Risk**

**Profile**

At the reporting date, the interest rate profile of the Company's interest-bearing financial instruments

	<b>Carrying Amount</b>	
	<b>31/12/2020</b>	<b>31/12/2019</b>
	<b>MVR</b>	<b>MVR</b>
<b>Fixed Rate Instruments</b>		
Loans and borrowings	133,341,987	136,894,674
	<u>133,341,987</u>	<u>136,894,674</u>

**(b) Currency Risk**

**Exposure to currency risk**

The Company's exposure to foreign currency risk was as follows based on notional amounts:

	<b>31/12/2020</b>	<b>31/12/2019</b>
	<b>USD</b>	<b>USD</b>
Cash and cash equivalents	63,559	87,622
Trade and other payables	4,123,895	8,003,160
Gross Exposure	<u>4,187,454</u>	<u>8,090,782</u>

The following significant exchange rates were applied during the year:

	<b>Average Rate</b>		<b>Reporting Date Spot Rate</b>	
	<b>2020</b>	<b>2019</b>	<b>31/12/2020</b>	<b>31/12/2019</b>
1 US\$ : MVR	15.42	15.42	15.42	15.42

In respect of the monetary assets and liabilities denominated in MVR, the Company has limited currency risk exposure on such balances since the Maldivian Rufiyaa is pledged to the US Dollar within a band to fluctuate within  $\pm 20\%$  of the mid-point of exchange rate.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**  
**FOR THE YEAR ENDED 31 DECEMBER 2020**

**22 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)**

**(iv) Capital management**

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board of Directors monitors the return on capital and level of dividends to ordinary shareholders.

The Company's debt to adjusted capital ratio at the end of the reporting period was as follows:

	<b>31/12/2020</b>	<b>31/12/2019</b>
	<b>MVR</b>	<b>MVR</b>
Total liabilities	1,274,799,908	981,015,967
Less: Cash and cash equivalents	(8,454,286)	(5,633,229)
Net debt	1,266,345,622	975,382,738
Total equity	2,088,616,781	2,023,482,868
Debt to capital ratio	0.61	0.48

There were no changes in the Company's approach to capital management during the year. The Company is not subject to externally imposed capital requirements.

**23 EVENTS AFTER THE REPORTING DATE**

No circumstances have arisen since reporting date which require adjustments to/ or disclosure in the financial statements.

**24 DIRECTORS' RESPONSIBILITY**

The Board of Directors of the Company is responsible for preparation and presentation of these financial statements.

**25 CONTINGENT LIABILITIES**

There were no contingent liabilities which require disclosure in the financial statements as at the reporting date.

**26 CAPITAL COMMITMENTS**

There were no capital commitments, which required adjustments to / or disclosure in the financial statements at end of the reporting period.

**27 COVID-19 PANDEMIC**

Management continues to have a reasonable expectation that the Company has adequate resources to continue in operation for at least the next 12 months and that the going concern basis of accounting remains appropriate. The outbreak of the COVID-19 pandemic and the measures adopted by the Government in Maldives to mitigate its spread have impacted the Company. This has negatively impacted the Company's financial performance during the year and also its liquidity position.

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

**FOR THE YEAR ENDED 31 DECEMBER 2020**

**27 COVID-19 PANDEMIC (CONTINUED)**

Most of the business segments of the Company operate in essential service category. Therefore COVID-19 pandemic had a moderate impact on the Company's general business routines and the Company evaluated the resilience of its businesses considering factors such as profitability, cash reserves, and potential sources of financing facilities: if required and possibility of differing non-essential capital expenditure. Having considered the above, management is satisfied that the Company has adequate resources to continue in operational existence for foreseeable future.

Also, to respond to a severe downside scenario, management has the ability to take the following mitigating actions to reduce costs, optimize the Company's cash flow and preserve liquidity:

- reducing non-essential capital expenditure and deferring or cancelling discretionary spend;
- freezing non-essential recruitment; and
- reducing marketing expenses

Based on these factors, management has a reasonable expectation that the Company has adequate resources and sufficient loan facility headroom.

**28 RELATED PARTY TRANSACTIONS**

The Government of Maldives holds 100% (2019: 100%) of the voting rights of the Company as at 31 December 2020 and has significant influence over the financial and operating policies of the Company. Accordingly, the Company has considered the Government of Maldives as a related party according to International Accounting Standards 24 Related Party Disclosures.

During the year ended 31 December 2020, the Company has carried out transactions with the Government of Maldives and other Government related entities in the ordinary course of business.

**(iii) Collectively, but not individually significant transactions**

The Company has transactions with entities directly or indirectly controlled by the Government of Maldives through its authorities, agencies, affiliations and other organizations, collectively referred to as government entities. The Company has transactions with other government related entities including but not limited to rendering of services, purchases, loans and use of public utilities.

**(iv) Transactions with the Key Management Personnel**

The Board of Directors and Managing Director of the Company are the members of key management personnel. The Company has paid MVR 670,388/- as emoluments to key management personnel during the year ended 31 December 2020 (2019: MVR 603,173-).

**FENAKA CORPORATION LIMITED**  
**(INCORPORATED IN THE REPUBLIC OF MALDIVES)**  
**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**  
**FOR THE YEAR ENDED 31 DECEMBER 2020**

**29 RESTATEMENT OF COMPARATIVE BALANCES - CORRECTION OF ERRORS**

During the year, it was discovered that the Company had not assessed impairment provision for trade receivable balance reflected in the financial statements for the year ended 31 December 2018 and 31 December 2019 as inline with IFRS 9. As a result, accumulated losses had been understated by MVR 34,991,019/- and trade and other receivables had been overstated by MVR 34,991,019/- and MVR 55,137,688/- respectively as at 31 December 2018 and 31 December 2019.

Further, It was observed that the Company had not accounted for its leased assets as per the requirements of IFRS 16 for the year ended 31 December 2019 and had passed erroneous entries to property plant and equipment while erroneously recognizing the revaluation gain as an addition to the share capital. As a result of that, property, plant and equipment had been overstated by MVR 17,463,399/- and right of use assets and lease liability had been understated by MVR 33,004,041/- and MVR 34,974,489/- respectively as at 31 December 2019. Accordingly, these errors have been corrected by restating each of the affected financial statement line items for the prior years in accordance with International Accounting Standards (IAS) 8, Changes in Accounting Estimates and Errors. The following tables summarize the impact on the Company's financial statements.

**29.1 As at 1 January 2019**
